- low-cost meals
- opportunities for socialization
- entertaining activities
- crafts
- health activities
- social work services
- education
- trips

We change lives.

And we have fun doing it. Our community of seniors, staff, volunteers and visitors creates a web of well-being by nurturing and developing our clients' physical, social and emotional health.

We are passionate about helping our seniors age well and are advocates for their needs.

Compassion

We take care of each other.

We listen and we stand with our seniors. Through our kindness, caring and thoughtfulness, we lessen their burden.

We recognize the worth of all.

We welcome every member of our community and foster mutual respect. We treat others as they wish to be treated.

We always act with integrity.

We are honest, truthful and fair, and hold ourselves to the highest moral and ethical standards. We call out injustice and always do the right thing for our community.

Cultural

We accept and honor everyone.

We welcome and seek to understand our whole community regardless of race, religion, ethnicity or sexual orientation.

Competence

We believe that we all are equals and our differences make us a stronger, healthier community.
